DENTAL ACADEMY

CPD COURSE

DIRECT RESTORATIONS - THE TRANSITION FROM AMALGAM

Speaker: Michael Thomas, Senior Teaching Fellow and Specialist Clinical Teacher, department of Conservative & MI Dentistry, Kings College London

**Date: Friday 12th April 2019,
9.00am - 4.45pm**

Cost: £215.00

OVERVIEW

The adoption of the Minimata treaty means the use of dental amalgam is gradually being withdrawn in the UK. Concepts in cavity preparation have also changed since the days of GV Black.

On this course, you'll consider new concepts of cavity preparation design, including what to remove and what to leave with regards to carious dentine, and the suitable materials to produce direct restorations.

What you'll experience

On this short course you'll cover:

- up to date thoughts on cavity preparation and design
- the suitable materials available for direct restorations
- how to use the materials and techniques to carry out effective direct restorations
- hands on experience in cavity preparations and direct restorations

Development Outcome: C
